## Monthly Lesson:

Earth Day- Falls on April 22<sup>nd</sup> each year, Earth Day holds a special place in our hearts because it's a day dedicated to honoring the planet that sustains us all. It's a reminder of the interconnectedness of all living beings and the responsibility we have to care for our home. A Few earth day rituals

Be a Planet Hero!

-In its lifetime, one reusable bag can prevent the use of 600 plastic bags.

-Recycling one can of soda will save enough energy to power a tv for three hours.

-Shutting down a computer when it's not in use cuts the energy consumption by 85 percent.

-For every mile walked instead of driven, nearly one pound of pollution is kept out of the air

to do at home:

Hippoty- Hop! It seems I've lost my Easter eggs. Between April 1<sup>st</sup> -22<sup>nd</sup> be on the look out to help me find my colorful Easter eggs. This pesky rabbit has been all over the place so make sure you check up, down, left, right and maybe even outside. If you can not reach an egg please ask for assistance. Once you have found an egg or two bring it to the front desk on AL put your name on a piece of paper (provided in the red bucket) and drop the piece of paper with your name on it and the egg in the box. This bunny is clumsy so I may lose them multiple times during my 22 days stay, so keep your eye out each day.

Winner or winners will be announced at the May resident council meeting.

Have fun and Happy Easter  
-The friendly pesky rabbit

## Gardener's poem

The sun is nervous as a kite  
That can't quite keep its own string tight.

Some days are fair, and some are raw.  
The timid earth decides to thaw.

Shy budlets peep from twigs on trees,  
And robins join the chickadees.

Daffodils poke through the ground.  
Rosie's nose must sniff around.

Stroll outside or stay indoors.  
In or out, the choice is yours.  
Your gardener though,  
wants you outside  
In the spring air is where  
you should bide!
